Elective	
Other	

Graduate:

Foundation	
Core requirement	17
Concentration requirement	2
Elective	
Other	

Student's Background average score	4.5
Student's Effort average score	4.1

Comments:

- Prof. Gurzick is an outstanding and distinguished professor. He does immense research and preparation for his class and uses innovative ways to engage students in the learning process. He is very fair at his assessments and very supportive and respectful of every student's viewpoints and contributions. I learnt a lot from this class. Although the class work was more than other classes, it instilled within me a good practice of working hard within a short deadline, something that every MBA student must possess within them to succeed in the corporate world. I think Prof. Gurzick should teach more MBA courses and just like me I am sure a lot of student would look forward to taking his class. Thank you Prof. Gurzick.
- Excellent class- well designed and very stimulating
- Dr. Gurzick is one of the most involved instructors I've had. I feel he really cares about the students and takes time to provide individual comments and suggestions for students.
- Great class – enjoyed the topics
- Class was interesting and the topics are all great! I wish we'd had more time for some of the classes it felt like more time would have made some great topics better.
- Very interesting topics...Great course!!
- I know that the preparation and delivery of a class presentation is a beneficial exercise. I did feel, however, that many of them were weak and involved too many videos. Perhaps limiting the time to 30-45 minutes would be better so that teams didn't feel they had to "fill" class time.
- Loved everything about the class.
- Dr. Gurzick is an amazing professor. He is VERY knowledgeable and uses great examples!
- Feedback on presentation was very constructive.
- Tough course, great subject matter and challenging course requirements. One of best course I have taken at Hood.
- Loved all the presentations- Would love to see more in class challenges that are questionable in ethics. The challenges we did each week, they really brought together all the topics of the course. As in all Dr. Gurzick's classes, he was very helpful, even explaining questions from other classes and of course technology questions.
